4 O'CLOCK. At the opening of the court the Court said that three of the jurors had very earnestly requested to see their families, and said that if the prisoner and his counsel were willing this would be allowed. The prisoner readily assented; and an officer was assigned to each one and they were strictly charged to allow them to speak to their families only, and to no person on the subject of this suit, and to return them into court as soon as possible. The clerk then proceeded to call the names of the panel:

LT The Annual Report of the Comptroller was sub mitted to the Legislature on Friday the 7th of January the fourth day of the Session, and the day the Assembly Committees were appointed. It was printed with all disesting experiments on the atmosphere. The great Cos- patch, and laid on the tables of the Members on Saturday morama contains a number of new and beautiful views, the 15th. On Tuesday the 18th, the Sun complained that it was not yet made public, and on Wednesday the 19th again asserts that it cannot learn from this document what were the expenses of the Government for the last year, though every item is given twice over and carefully considered in every aspect calculated to throw light upon it. We published the Expenditures of 1541, extracted from that document, on the very morning that The Sun came out grumbling that it does not state them !

This is not the only injustice of which The Sun is guilty in regard to the Comptroller's Report. It insists that the U. S. The bill was so framed at first, but its terms changed afterward to avoid the Veto of Gen. Jackson. If it were a veritable Deposite, why was it not recalled by President Van Buren and Secretary Woodbury. instead of resorting to the issue of Treasury Notes? Why descend to shinning, with abundance of cash assets in are requested to attend a Public Meeting Tats Even we hand! Every man must see that this attempt to swell the State Debt is deceptive. For, even if the Deposite Fund were to be recalled, the State of New-York has never spent a dollar of it. It was merely loaned out among her own citizens, under the authority of a Van Buren Governor and Legislature, to be paid, principal and interest, by them. If the Federal Government should recall it, (which it never will.) it will reduce the Capital and Income of our School Fund, but add not a dollar to our State Debt. Other large items in The Sun's statement are equally deceptive and fallacious.

Civilization last evening considered the history and philosophy of the influences through which the Human Race has emerged from Barbarism. It assumed that the earliest state of every nation or tribe known to the reliable annals of the Race is that of savageness and wild independence. Whether there was indeed an earlier civilization than this-the Cyclopean-the Golden Age of the poets -as some traditions dimly assert, is at best a foubtful speculation, and in no respect important to the present investigation. Enough that the re-Last Page.

He cannot say to his rulers, 'This is my inalienable right-you have no just power to take it from me!' The veriest serf of the Russia Autocrat has greater immunities now than the proudest citizen of Rome in her glory.

The third form of Civilization which the world has developed is Christian. This destroys nothing valuable, but fulfils and is the complement of all the good contained in the preceding. It developes and establishes the idea of the sacredness and responsibility of the Individual. The Church has still its sphere of influence; so has the State; but beyond these the more perfect order acknowledges and respects the sphere of Man-his rights, his duties, his responsibilities as an individual. Religiously considered the Christian order excels in making that general which was before particular. The Hebrew has learned that he must love his neighbor as himself; Christ teaches him that his neighbors are all whom he has power to benefit.-The Hebrew knows that God is One-is supremely holy, wise and good-to the Hebrews: Christ teaches him that as he is to the Hebrews, so he is

For fifteen centuries the Church was the great instrument of God in carrying forward the Human Race. Our Protestant historians have misled us in representing the Church as benighted, corrupt, tyrannical through a great part of that period .-It could never have wielded so prodigious an influence if it had not been superior in wisdom and virtue to the world around it. It long retained its power, because that power was generally exerted on the side of Justice and Humanity against the profligate and the oppressor. When I read, said Mr. B., of an English Henry compelled to make a penitential pilgrimage to the tomb of Thomas a Becket; of a German Henry shivering for days at the closed doors of the Vatican; of a Frederick Barbarossa compelled to yield his neck to the boot of a Pope, I thank God that there was power in the earth before which those haughty tyrants and oppressors were compelled to crouch and tremble. For ages the Church was the only sanctuary of the People's rights-the only shield of the many against the robbers and despots of the Feudal era. In process of time, the Church waned; the People became more enlightened and more free; a Luther was required, and a Luther appeared. Since that time the Church has been comparatively powerless. But Protestantism, as such, can never be what the Church in its purity and energy has beent needs not its thousand warring, wrangling, muliplying sects to teach us this-for a pretest is a negation, and it is only by affirmation that the world is moved, or warmed or regenerated. Thou-ands now find themselves cramped, imprisoned by the party walls of their sects and creeds. The Church of the Future must be one of aspirations, sympathies and spirit proportioned to the expansion and propective progre as of Humanity.

Mr. B. scouted the idea of a distinction between Religion and Philosophy. Rightly considered, they are but different sides of the same great truthdifferent terms for the same grand idea-the amelioration and growth of Humanity-its elevation from earth to Heaven-from clay to God.

Equally averse was he to the distinction of Christianity and Infidelity. In the midst of the monuments of Christian Civilization, it is impossi ble that a man should be truly an Infidel. If he thinks himself so he is deceived. If he argues that Christianity is imperfect, he tries it by standards which Christianity alone has established. He could never have discovered the imperfections which he mistakenly ascribes to it but by the light which it has furnished. In this view, the infidel Philosophers, so called of the last century-Voltaire, Condorcet, Rousseau, D'Holbach-are essentially Christian. They believe they are protesting against Christianity, while they are but exposing the departures of the Church from the standard of its Divine Founder. Their writings are full of elequent appeals for Humanity-for its rights, its capacities, its respectability-which but for it they had never been incited to make. Both they and their opponents were right in what they affirmed-wrong only in what they denied. Their errors perish with them-the truth remains forever.

Mr. Browsson concluded with an eloquent philippic against all plans of Human Amelioration founded on appeals to the self-interest of man.

Mr. O. A Brownson's Second Lecture on These will only confirm him in his errors, and magnify the evils they propose to subvert. But let the appeal be made to the nobler qualities of his soul to the heroic, the self-denying, the self-sacrificing for the good of others-and the appeal will rarely be in vain.

Mr. B. will deliver his Third Lecture next Tues. day evening at Clinton Half. Its subject will be. the Influence of Property on the Progress of Civil.

State of the Domestic or Country Market Thursday, P. M

The weather continues mild, and our harber is as free from ice as it is in the mouth of July. Marketing of almost all kinds continues to come is, and the supplies are very bountiful. During the week, a lot of 300 dezen fresh EGGS from Virginia were purchased at the Fulton Marker at the rate of about 20 cents per dezen. Another log of 38 barrels from Philadelphia were sold in the Washing. in liste, or what are called Lime Eggs, are selling at about 14 cents per dezen. Cranberries are not very plenty, and most ready sale at \$5 50 per barrel. Poultry, still pleaty and uncommonly fine. Carrots sell from 25 cents to 62; cents per 100. There are a good many in market, and they are very fine. Hickory Nuts, abundant beyond all precedent; 75 cents a bushel is as much as can be obtained for them; last year at this time, they brougt \$1 50. Black Walnuts 31; cents a bushel. Retail for 50 cents:

The New-York and Eric Railroad Company continues to do a good freighting business on the small section of their road which is completed. We noticed in their freight list for the week 10 tons from New Jersey, 377 sides Leather, 25 dozen Splint Brogms, 3.211lbs. Nus. 181 Scoops, besides any quantity of Poultry, Apples, Sama. ges, Butter, Cheese, &c. The New-Yorkers are just beginning to wake up. High time, truly, when the Beston. race and Philadelphians are running off with a large pertion of their trade. If our city lies still for five years loger' real estate will go down 30 per cent, while in Bester and Philadelphia it will go up 50 per cent. Still we are told that the persons holding the largest amount of property are deing the least for this road. We were informed the other day that John Jabob Aster had subscribed for \$500,000 of the stock, and that Stephen Wkitney also had taken about \$50,000. We do not know whether thereport be true or not, but if true, both these gentlemen, by the completion of this road, will be benefited in the property to twice the amount of the sums above named, and this too if they should never realize one cent from

and one of the most convenient places in the city to ga ther the news of the day is at the Climax Eating House, No. 11 Ann-street, running through to Fulton street. At his well conducted and popular establishment there are twenty six marble tables, with a leading journal on each table, representing every State in the Union; thus citizens and strangers have the opportunity of taking their coffee, &c. and reading the latest papers from all parts of the country on the same table. It strikes us that this at rangement is superior to anything ever attempted in this city, and we have no doubt will prove a great featurel this extensively patronized house of refreshment. Under the management of its gentlemanly proprietor, the Climax, we are pleased to learn, is rapidly increasing in petronage and popular favor, and we doubt not will contint to receive its full share of public support.
